

Women in BIM Regional Lead Responsibilities.

Women in BIM are a globally recognised diversity group aimed at supporting the Construction industry in their adoption of BIM and helping to drive diversity and inclusion across our sector. As a community we are aimed to drive this agenda globally and need help and support across the globe to do this.

The role of a WIB Regional Lead (WIBRL) is an important one and aims to follow and align to our core ambitions and principles of WIB as outlined below. The WIBRL role will be accepted for a minimum term of one year unless otherwise agreed. The key responsibilities for the Regional lead will be to undertake the following key activities noted below and to keep our team up to date on any further developments in BIM you feel appropriate to your region. All correspondence relating to the WIBRL responsibilities should be sent to our global administrator Nicole De Cicco, and her contact details can be found below.

WIBRL's can be appointed across multiple regions and we simply ask you to engage with those others in your area to support our key agenda. This is to ensure that the messaging, tasks, and support network can be utilized across the WIB network.

Women in BIM Values

It is the responsibility of the WIBRL to ensure they adhere to the key values noted below. Activities should support the global drive for Women in BIM under the three work streams noted below:

Our values are broadly outlined below.

1. Attract and Encourage Women in BIM & Digital roles.
2. Promote and Support Women in BIM & Digital Roles.
3. Advance and Retain Women in BIM & Digital Roles.

Regional Lead Key Responsibilities

WIB Regional Leads are expected to undertake the below activities in order to help us to grow our network and ultimately drive diversity across the Construction Industry. It is important for you to facilitate these activities and help to grow our network in your region of the world. These responsibilities at a minimum include:

1. To raise awareness of Women in BIM in order to grow numbers in your region.
2. Attend WIB Regional Lead meetings organised by the Regional Lead Coordinator to meet with other Regional Leads and discuss any relevant BIM activities, events or projects relating to your region.
3. To facilitate possible meetups (either virtual or face to face) in your region to support networking opportunities.
4. To contribute to News, Articles and conversations on social media that relate to Women in BIM and diversity (LinkedIn, Twitter and Website).
5. To write 1 x post per year on the Women in BIM LinkedIn Group annually specific to your country/city on BIM.
6. Aim to write and provide 1 x article per year to deliver to our members via our mailing list and host on our website.

Women in BIM Regional Lead Responsibilities.

As mentioned, all correspondence should be directed through to Nicole De Cicco at this email address for any questions or queries to support your role as a Regional Lead: info@womeninbim.org

Any specific questions can also be directed towards our Regional Lead Coordinators.

Regional Lead Coordinator APAC – Nicole De Cicco info@womeninbim.org

Regional Lead Coordinator UK / Europe – Giulia Pustorino giuliap@womeninbim.org

Regional Lead Coordinator South America – Michele Tenedini - michelet@womeninbim.org

Regional Lead Coordinator North America – Lindsay Prichard-Fox - lindsaypf@womeninbim.org

Thank you,

The WIB Global Executive Leadership Team
