Women in BIM Regional Lead

A **Women in BIM (WIB) Regional Lead** represents WIB at a local level, working to advance gender diversity and inclusion in the BIM and digital construction sectors within their region. Key responsibilities include:

Leadership & Advocacy
Promote WIB's mission and goals and advocate for gender equality in the industry with a regional specific focus.

Community Building
Network with local professionals, organise events, and foster a supportive environment for women in BIM and digital construction.

Professional Development
Facilitate mentorship, training programs, and career growth opportunities for women in your region.

Event Coordination
Plan regional events like workshops, conferences, and panels focused on digital construction and women's empowerment.

Collaboration with Global WIB
Align regional efforts with global initiatives, sharing insights and best practices.

Inspiration & Advocacy
Serve as a role model and support the advancement of women in leadership roles within BIM and digital construction.

Communications
Attend 80% WIB Regional Lead meetings within your region to discuss any relevant BIM activities, events or projects relating to your region and contribute to news, articles and conversations on social media that relate to Women in BIM and diversity.

Collaborate with Industry partners
Attend events across your region who focus on digital and construction to spread the awareness for WIB in your region as well as help grow numbers for diverse representation across industry.

The Regional Lead is a catalyst for creating a more inclusive, supportive, and empowering environment for women in the BIM & digital construction industry.

Estimated Minimum Time Commitment: 2 hours/week, with peaks during major events or initiatives. Flexibility is often required, but the role is generally part-time and can be managed alongside other professional responsibilities.
